---

Leonard said he talked with you, and you are okay with the additional 60 days to allow them to come up with documents from the 70's and 80's?

Thanks,

David Eppler

I think 45 days extension should be fine, why we need 60-day extension?

**Subject:** FW: F.J. Doyle Salvage Superfund Site: Request for Additional Time to Respond

Ben,

Please see AEP's request below. We recommend accepting their request, with the proviso that they send material they discover on an interim basis to us at thirty, and forty-five days, and finalize their response at sixty days.

Thanks.

**Subject:** F.J. Doyle Salvage Superfund Site: Request for Additional Time to Respond

Dear Mr. Schilling, Thank you for speaking with me today. Public Service Company of Oklahoma (PSO) and Southwestern Electric Power Company (SWEPCO), subsidiaries of AEP, are both in receipt of EPA's CERCLA 104(e) Information Request concerning the F.J. Doyle Salvage Superfund Site. The information request asks for a response within 30 days of receipt. On behalf of PSO and SWEPCO, I am writing to request an additional time in which to respond of 60 days or May 20. From some initial inquiries within the companies, I understand that we may have responsive information but due to the age of the information, the companies need additional time to conduct a diligent search, investigate and locate relevant files, and review the information in order to be able to prepare a thorough response. I appreciate your consideration of PSO/SWEPCO's request and look forward to a response at your earliest convenience.

Sincerely,

Elizabeth

Counsel for PSO and SWEPCO
